FRESBEE CHAIR

\$745

DESCRIPTION

Mixing the charm of mid-century furniture with a decidedly more contemporary flair, this armchair will make a distinctive accent piece in a living room, entryway, or even bedroom. Its slanted, thin legs are in chromed metal (which can also have a chrome-satin finish) and support a structure in beech plywood visible on the back. The semi-circular shape of the backrest and of seat and armrests is cushioned in polyurethane and upholstered in black leather (also available in cat B fabric). Please ask the concierge about change in metal finishes and cover materials.
