FROG NECKLACE

\$610

DESCRIPTION

Captivating color and asymmetry collide in this modern interpretation of the grace of the forested wilderness. This necklace features a stunning frog pendant in enameled sterling silver closely flanked by two clear quartz stones connected by sets of interlacing, diamond-shaped hoops. The textured quality of the pendant is highlighted by the purity of the quartz. A solid, geometric chain in gold-plated brass and 925 sterling silver, fastened with a hook and eye clasp, continues from the quartz completing the composition.
