### FUGIT GREEN VASE

\$480

---

#### DESCRIPTION

Fittingly named Fugit (Latin for fled), this contemporary design by Matteo Fiorini is inspired by the fleeting and transitory nature of all things. Consisting of a single metal sheet marked by sharp angles and an asymmetric aesthetic, this sculptural vase has a bold allure that is highlighted by subtle sage-green color with a metallic finish. Displayed with tall-stem flowers or branches on a console or dining table, this vase will be a stunning accent that will enrich any interior decor with modern sophistication.
