## FUKUI BOWL

\$530

### DESCRIPTION

This bowl is a versatile and striking addition to any modern home where, both as a vase or a centerpiece, it will make a statement. Its simple silhouette is adorned with a decorative patch that seems to have been sewn on it. Part of a limited series, the copper, white bronze, and brass used reflect the surrounding light in a unique way, while the patch symbolizes the quest to repair and not throw away broken objects, according to the Japanese philosophy of Kintsugi.
