## FUNNY WOOD SIDEBOARD

\$2,640

### DESCRIPTION

The Funny Sideboard centers around pure design wherein form follows function without compromising style. Impeccably handcrafted, the top features three storage compartments (two with doors and a two-drawer unit) with flush-style veneered panels in matte lacquered sky blue enclosed in a natural oak wood frame. The elegantly shaped handles and conical legs match the frame's wood to create a harmonious look. Due to the natural materials and handcrafted process, variations are to be expected.
