GAIA PINK ARMCHAIR

\$3,080

DESCRIPTION

This elegant armchair was inspired by the designs of Brazilian mid-century furniture, with a rigorous geometry and delicate round corners to add charm to the piece. Conceived exclusively for the event "Stranger Pinks" hosted by Artemest for the Fuorisalone during Milan Design Week 2018, this piece was designed by Monica Freitas Geronimi and its jointed structure was crafted of walnut wood. The comfortable cushions of seat and slightly reclined back are in pink velvet (also available in brown coconut velvet, grey velvet, or chocolate velvet).
