## GALACTIC CHANDELIER

\$7,420

### DESCRIPTION

This exquisite chandelier features an innovative design whose contemporary allure is combined with the use of precious materials and traditional craftsmanship. The protagonists of the piece are a series of cylinders in mouth-blown Venetian glass whose surface is worked with the "ritalin ritorto" technique to create a coiling texture on the glass surface, on which precious gold leaf is then applied. The structure that hides the light fixture is in brushed gold, while the ring that keeps the cylinders together is in metal with a special mirrored gold finish.

### DETAILS & DIMENSIONS

- Material: Venetian glass, Gold leaf, Metal
- Dimensions (in): W 29.53 x D 29.53 x H 39.37
- Dimensions (cm): W 75 x D 75 x H 100
- Handmade In Italy
