## GEOMETRIC-STYLE 4-DOOR DARK/LIGHT BROWN SIDEBOARD

\$4,590

### DESCRIPTION

This precious sideboard - combining wood in two intensely contrasting hues - owes its impactful look to the intriguing motif of darker geometric shapes that lend the doors their extraordinary optical effect. Incorporating ash triangles, it delivers a distinctly modern flair while impeccably serving its basic storage function for tablecloths, tableware, and other objects one wants to keep neatly organized and away from view yet still on hand.
