GEOMETRICO OTTAGONO WALLPAPER

\$730

DESCRIPTION

A stunning addition to a contemporary living room or a traditional bedroom, this elegant wallpaper will infuse a room with its one-of-a-kind elegance. Its geometric design was painted by hand in several steps, to create the look of tapestry. The paper is initially prepared with a gold background, and then the colors are applied one-by-one to render the effects of lights and shadows. A sophisticated decor that will be especially stunning behind frames and paintings, each sheet is unique and is sold by the square meter.
