GEOMETRICO TRAY

\$940

DESCRIPTION

And exercise in elegance and modern design, this tray is a true work of art, part of a limited series of 20 items designed in 2017 that can be used at home to serve refreshments or display collectibles. It was entirely handmade and hand decorated using larch sourced in Europe and finished with a non-toxic, water-based varnish that protects it from scratches. Its stunning design combines pure geometric shapes and neutral colors, adorned at the center with green circles and a triangular black accent. This stunning piece will make a sophisticated statement in a contemporary interior.
