## GIROPESCI LARGE BOWL

\$260

### DESCRIPTION

Alessandro Iudici created this bowl as a stunning homage to the rich and splendid sea surrounding his native Sicily. Entirely crafted by hand of ceramic, the bowl rests on a small round base and flares to the top that is accented with a garland of three-dimensional fish that seemingly splash out of the water. The bowl's exterior is hand painted with a marine landscape, interpreting with a fresh and eclectic aesthetic a day on the boat. Used to serve food or as centerpiece in a modern home, this eye-catching piece will be a unique addition to any surface.
