## GIUNGLA AUREA I BRASS SCULPTURE

\$1,350

### DESCRIPTION

Marked by visual harmony and distinctive aesthetic, this sculpture belongs to the Giungla Aurea Collection (golden jungle in English) including unique pieces of hand-welded oxidized brass on a satin-finished graphite base. This piece consists of three branches and four stems with a round mirror on top, the tallest one depicting a large stylized eye. Part of the stage set from Scene I of "Il grande felino", the understated golden accents of the leaves and light blue hue of the mirror elements will both attract and reflect the light in a luxurious manner.
