GLAM TABLE LAMP

\$890

DESCRIPTION

Lighting becomes decorative object in this remarkable lamp of geometric inspiration. Stacks of metal blocks, in alternating gold and silver finish, form the base of this modern table lamp: a large pole with three cubes at the center and four smaller rods with two cubes at the corners. Topped with a black cotton shade, it brings a sculptural, elegant look to side tables, desks and consoles. This item is only wired for 220V and it is sold with an adapter.
