\$1,320

### DESCRIPTION

This elegant pair of cufflinks was crafted entirely by hand and comprises identical prism-shaped toggles and faces in glazed onyx. The dark hue of the stone strikingly complements the warm glow of the 18-carat yellow gold of the mountings and posts, which feature the engraved writing "Jona 750". Either as an addition to a personal collection or gifted to a loved one, this will be a superb and timeless set.
