GLOBE VASE #3

\$2,160

## DESCRIPTION

Simple yet striking, this one-off vase exemplifies Eloisa Gobbo's creativity and masterful ability to mix geometric and graphic patterns with bold chromatic effects. Molded by hand on a lathe, the clay is first fired in a kiln at temperatures below 1000°C and then painted carefully by hand using enamel colors. A second firing at high temperatures ensures the multi-coat glazes and black and red geometric patterns to remain vibrant, enhanced by the glossy finish.
