

LIGHTING : TABLE LAMPS

Siru Illuminazione

GOCCIA TABLE LAMP

\$570

DESCRIPTION

This elegant table lamp will bring a touch of classic charm to a bedroom, a study or a living room, thanks to its exquisite craftsmanship and sinuous silhouette. The transparent Murano glass of the shade was mouth-blown with the traditional "balaton" effect that enriches its texture with lozenge-like decorative patterns and it is contained by a bronzed steel structure in the shape of a drop. The lightbulb is an E27 100W max (also available the version UL E26 60W max).
