GOLD AND GREEN VASE

\$510

DESCRIPTION

The superb sculptural quality of this ceramic vase, combined with its stunning use of precious finishes, makes it a work of art to showcase anywhere at home. The sinuous curves of the base are highlighted by a rich, forest-green color that splendidly complements the hand-painted pure gold that marks the exquisite ring-shaped texture of the elongated neck and flared mouth. Showcased as a standalone piece or filled with flower, this superb object will make a statement in both classic and contemporary interiors.
