Silvio Piattelli

GOLD DINAMO FACETED CUBE LIGHT

\$410

DESCRIPTION

This unique light has a mesmerizing effect when illuminated from within. Its shade, designed in the European avant-garde style, is crafted entirely in Venetian mouth blown glass in a striking amber color with a mirrored finish. The light diffusing through the glass creates bright gold shades. The adjustable black silk cord allows it to be suspended, lighting interiors from above. The hardware is in natural spun brass and the light source is a 40W Edison screw bulb.
