GOLDEN COMPASS CHAIR IN BLACK 1954 BY CARLO DE CARLI

\$2,420

### DESCRIPTION

The style of this sophisticated chair is minimalist with a timeless flair. Master Italian Designer Carlo De Carli originally created this chair in 1954 and then, on his 100th birthday in 2011, La Permanente Mobili Cantù resurrected this design, along with many others, in an exhibition to honor the designer. The beechwood structure features a black finish and a steel cross piece helps to reinforce the frame. The brass harrowers bear a satin finish and the four legs are finished with rubber feet.
