GOLDEN MOON RING

\$265

DESCRIPTION

The bold shapes and soft lines of this exquisite ring reflect light, creating a stunning interplay of light and shadow. Made of gold-plated brass, this piece features an eye-catching rutilated quartz stone, with subtle threads of golden rutile interspersed in the clear stone. The round mounting is flanked by futuristic, geometric setting featuring a row of cylindrical forms of irregular lengths accented with zirconium stones. The combination of the gemstones with the metallic finish makes this a timeless accessory for the modern woman.
