GOMBO DUE COFFEE TABLE BY MASCIA MECCANI

\$3,220

DESCRIPTION

Like a canvas, the square walnut wood top of this original coffee table depicts an abstract design using water-based paint, cork, and small pebbles. The decoration gives the surface a vibrant and dynamic quality with ivory, gray, and brown shades and a large orange-red semicircle evoking the image of a sandy beach. The result of perfect harmony between sturdiness and sophistication, modern and traditional materials, this coffee table rests on wooden caster wheels making it a stunning functional and decorative addition to a modern and contemporary living room.
