GOMBO SMALL COFFEE TABLE BY MASCIA MECCANI

\$3,660

DESCRIPTION

Contemporary and unique, this coffee table elevates functional decor to art with the abstract "painting" that embellishes the walnut wood top supported by wooden castor wheels that give full mobility and add an industrial flair to the piece. The square top features an abstract design created with water-based, non-toxic paint in shades of pink, ivory, brown and gray and cork circles and small dark pebbles. Balancing modern and traditional materials in an innovative design, this coffee table will be the star of a modern and contemporary living room.
