## GOOD VIBRATIONS SIDEBOARD BY FERRUCCIO LAVIANI

\$21,465

### DESCRIPTION

This stunning sideboard was designed by Ferruccio Laviani as part the Good Vibrations collection, a series of unconventional pieces that deconstructs the aesthetic of traditional furniture by adding a sense of vibrating movement to the silhouette. In this case the rectangular shape of this container, entirely made of oak with a dusted grey oak finish, is enlivened by the asymmetric lines of its profile that evoke the image of a "tremor" that adds texture to the edges of its two front panels.

### DETAILS & DIMENSIONS

- Material: Oak wood
- Dimensions (in): W 64.96 x D 25.20 x H 32.09
- Dimensions (cm): W 165 x D 64 x H 81.5
- Handmade In Italy
