GRAY ECO-LEATHER COFFEE CONTAINER WITH LID AND ROPE INSERTS

\$290

DESCRIPTION

Designed to store coffee or ice cubes, this aluminum container makes for an ideal complement piece for exclusive tableware collections on boats. Its unmistakable nautical style is revealed by the multiple rows of ropes enveloping the exterior together with the gray eco-leather also enriching the flat, circular lid. A detail cut-out from the lid suggests the addition of a measuring spoon. Blue and brown variants are available, please consult the Artemest catalog for details.
