GRAY SEEING HER ON THE BENCH

\$4,460

### DESCRIPTION

An elegant seating option that suits modern and traditional settings alike, this bench frame is made of Canaletto walnut with straight legs and a solid base that give it an architectural aesthetic. The rectangular cushions are upholstered in a luxurious, gray fabric, and the one on top features an elegantly embossed geometrical pattern. The high resilience polyurethane foam padding and felt pads prevent marks on hard floors. A timeless work of functional decor, this is the perfect accent piece in a bedroom or extra seating in a living room.
