## GRAZIELLA CHAIR

\$540

### DESCRIPTION

The striking design of this chair is directly influenced by Aurora and Vito's masterful knowledge of cabinetmaking techniques. Eye-catching in a contemporary or eclectic interior, it will mesmerize thanks to the superb juxtaposition of parallel curves intersecting each other in an interplay of voids and shadows that evokes sequential movements. The seat with backrest is covered with a striking red upholstery that can be in eco-leather or fabric, while the wooden structure underneath is in plywood with side panels decorated in differently colored woods. Please ask the Concierge for options.
