**GREAT GATSBY CABINET BAR**

\$50,970

## DESCRIPTION

Inspired by the style of the 20s with its geometric silhouettes and precious decoration, this cabinet bar mixes functionality and design to bring luxurious elegance to a living room. Its structure is in glossy-finished rosewood whose natural veins seem to radiate from a central brass element that was photoengraved and given a silver finish. Other similar brass elements adorn the sides of the doors that open into a series of internal wooden containers equipped with mirrors and LED lights. This exquisite cabinet was designed by Leo De Carlo.
