GRECALE DECO BLACK AND WHITE VASE

\$690

DESCRIPTION

This exquisite ceramic vase is part of a series of vases inspired by winds. Grecale is a north-eastern wind and it is here poetically evoked on the hand-painted streak of black running horizontally on the pristine white of the background. The clean silhouette of the vase, with a hexagonal body resting on a small plinth base and supporting a long neck opening in a rectangular mouth, makes it a sophisticated addition to a modern decor.
