GREEN LEATHER TRAY WITH NATURAL LINING

\$80

DESCRIPTION

This tray features an exterior in a rich green vegetable-tanned Tuscan cow hide. The interior of this refined home accessory is lined in natural tanned Tuscan split suede. The combination of the natural suede and the green leather is enhanced thanks to the four golden brass accessories holding together the corners of the tray. An ancient leather working technique called blind tooling and blind lettering was used in the crafting of this tray which can suit any room in the home.
