GREEN PICTURE FRAME

\$75

DESCRIPTION

This classic picture frame is a refined accent piece that will enliven a rustic entryway or living room. Fashioned using ancient Florentine crafting methods, this wooden frame is hand painted in white acrylic tempera with green diamond accents and border trim with a protective beeswax finish. The frame has a marbled texture made with a sponging technique evoking the "encausto veneziano" finish found on Florentine church and palace facades. More than a decorative object, this frame will display cherished memories with a timeless style. Protective glass panel and metal back clips included.
