## GREEN VINEGAR CRUET BY IL VETRO DI EMPOLI

\$150

### DESCRIPTION

A vibrant green color (the famous "Verde Empoli") and a softly dented surface are the main features of this splendid vinegar cruet that will stand out on any table with its timeless elegance and unparalleled craftsmanship. Mouth-blown of glass, this piece exemplifies one of the most recognizable techniques of Empoli's artistic glassmaking, the bugnato, whereby a series of depressions are made by hand using a special tool to give a soft movement to the surface. The elegant curve of the narrow spout and a spherical stopper complete this unique piece that will bring a stylish touch to any table.
