GREGORIO DINING TABLE IN BASALTINA MARBLE

\$14,780

DESCRIPTION

The timeless allure of this table comes from the use of a classic material such as basaltina marble to cover a contemporary material such as the steel of the structure and its wide four legs that feature with a brass finish. The minimalist silhouette and the use of luxury materials make it an exquisite piece that can be used at a meeting or for dining. It can be customized in size and shape (rectangular, squared, or round).
