GREY AND SILVER PLUMAGE VASE

\$290

DESCRIPTION

This striking vase was designed by Cristina Celestino and made entirely in ceramic. Its elegant feather decoration is hand-painted by expert artisans using white enamels that are accented with strikes of elegant silver in a diagonal pattern. The base and interior of the piece are in glossy white. The use of contrasting colors and the diagonal decoration pattern make this a modern piece, ideal in entryways or living rooms with a contemporary decor.
