## GROOVE SEMI-HEXAGONAL NECKLACE IN YELLOW GOLD

\$1,190

### DESCRIPTION

Stunning and bold, this elegant necklace is a unique addition to a modern woman's jewelry box. Its front, shaped like a half-hexagon and made of 925 silver with 18k yellow gold plating is combined with a flexible back handmade of the same metal that was woven with fuchsia-colored silk strands by the hands of Florentine craftsmen using traditional methods. The shimmering effect of this a one-of-a-kind, fabric-like material is the standout feature of this piece that opens on the side thanks to a magnet. Part of the Groove collection, this piece can be combined with its bracelet counterpart.
