## GUINEA WALL LIGHT IN RED

\$1,230

### DESCRIPTION

This exquisite light fixture can be anchored to any wall thanks to a round solid brass support. Directly in front of the wall anchor is a single light which is reflected in the brass and then gently diffused through a round shade crafted using multiple layers of pleated organza, attached to a round brass frame, mimicking the shape of the support. This exquisite lighting fixture uses the perfect symmetry of its shape and interesting reflected light effects to create a sophisticated ambiance.
