HAC GRAY ROUND COFFEE TABLE WITH GREEN ALPS MARBLE TOP

\$890

DESCRIPTION

Part of the Hac series that combines methacrylate and fine marbles to achieve a striking visual effect, this elegant coffee table is defined by a sculptural silhouette reminiscent of the 1970s acrylic furniture. The round top is fashioned of Green Alps marble, an Italian marble quarried in Val d'Aosta, and rests on a smoke-gray methacrylate ring inserted into two laser-cut, trapezoid legs of clear methacrylate through a simple joint system. This sleek design converges both functional and architectural features that will infuse contemporary allure in a living room or office decor.
