HAC ROUND COFFEE TABLE WITH CARNICO MARBLE TOP

\$890

DESCRIPTION

Essential yet refined, this table will add a unique accent into a contemporary dining room. The laser-cut and hand-polished components exalt the pure clarity of the methacrylate that form the solid and stylish base and top border of this table. The meeting of two trapezoidal components creates the open base, while the top ring is characterized by a smoke-gray color matching the intense gray background with white and light grey veining of the Carnico marble top. Assembled without the use of tools, the marble top is easily inserted into the base giving stability to the whole table.
