HACKER 1 VASE #3

\$12,635

DESCRIPTION

The Hacker collection, produced by Manuel Coltri, designed by DWA Studio and curated by Paolo De Vivo, debuted at Milan Design Week in 2019 with a series of marble decorative objects defined by mixed geometric patterns. This tall cylindrical vase has a tapered base and boasts three alternating sections of stripes, small and large checkers of white Carrara and Sivec marbles, green and rainbow onyx, and basalt. The combination of textures, unique veining patterns and gradients of colors makes each vase of the collection unique. .
