## HALF MOON SALT SHAKER

\$180

### DESCRIPTION

An ideal counterpart to the Half Moon Pepper Shaker, this sophisticated piece will complement a contemporary or industrial table. Its elegant design was created by Elisa Ossino as part of the Lunar Landscape collection of unique pieces distinctive for their geometric rigor and the use of high quality materials. In this case, the half-spherical bowl of mouth-blown glass rests on a Carrara marble base. The combination of curved elements and straight lines, ethereal transparency and solid weight creates an eye-catching effect.
