Les Ottomans

HAMSA PLATE #4

\$110

DESCRIPTION

Symbolic of the five pillars of Islam, this porcelain plate revisits the classic hamsa, a palm-shaped amulet that symbolizes faith, happiness, and luck, in a stylized shape rendered with a modern color palette. Designed by StudioPepe for Les Ottomans, the hand is depicted in its essential forms, with a white sector accented by a black central dot for the palm that intersects diagonally with the three central fingers in beige and ice-blue, all on an ash-blue background for a captivating visual impact. Part of a set of six, this plate is perfect for any gift-giving occasion.
