### HAMSA PLATE #6

\$110

---

#### DESCRIPTION

Set on a terracotta-red background, this plate depicts the ancient hamsa symbol with modern, geometric flair: reduced to simple forms, the palm features two white dots for the pinky and thumb, a white circle with a light-blue central dot for the palm, and three long ovals in blue for the fingers that transition to blue in the white palm. Designed by StudioPepe for Les Ottomans, this plate makes a perfect accent on a modern table and a favorite wedding gift for young couples.
