**HAPPY PLANET/SCIIA SQUARE GREY LAMP SHADE/BOTTLE**

\$340

## DESCRIPTION

This striking set is the combination of two items that can be displayed either separately or combined together to create a geometric totem of ethereal elegance. The bottom is the transparent mouth-blown glass bottle Sciia, with its conical shape, while on top there is the Happy Planet mouth-blown glass lampshade in its grey square version. Designed by Dominoni and Quaquaro for a contemporary home, this pair can be combined with others in the same series for a dynamic effect.
