Frisoli

HAT CARBON AND GLASS SQUARE CENTERPIECE

\$1,350

DESCRIPTION

An modern jewel for the contemporary home, this square centerpiece is a stunning addition to a console or dining table. It is part of the Hat collection, inspired by the dynamism of Alexander Calder's kinetic sculptures and crafted of unique materials that make each piece a one-of-a-kind objet d'art. In this case, aerospace material is dripped over the Frisoli Lachesi, an exclusive mix of carbon fiber and glass fiber developed by Frisoli, creating mesmerizing patterns over the slanting surface of the piece. This piece can be displayed along with others in the same series for a striking effect.
