WOMAN HEAD WITH LEMON TURBAN LARGE VASE

\$300

DESCRIPTION

Crafted by maestro Giacomo Alessi, this singular anthropomorphic vase of a woman is distinguished for its originality, dynamic details, and powerful decorative impact. The woman's comely countenance is marked by an ivory complexion and a unique turban of Sicilian lemons, an homage to the natural beauty and iconic richness of the Mediterranean. The rich yellow of the lemons and vivid green of the leaves complement the antique-blue earrings and orange necklace and collar. Displayed with flowers on a patio table or entryway console, this elegant vase will enliven any decor with timeless charm.
