Margherita Burgener

**HEARTS AND FLOWERS FUCSIA EARRINGS IN GOLD, DIAMONDS
AND TITANIUM**

\$1,060

DESCRIPTION

These colorful and delicate earrings were made entirely by hand and feature a three-petal flower body in titanium with a vivid fuchsia color that was obtained through oxidation, making this pair completely hypoallergenic. Inside each earring, there is a diamond (G color, VVS2 purity, and .20 carats of weight) mounted on 18k white gold for a total of 1.58 grams. The flower part can be removed to wear the diamonds alone and it can be changed in color and finish. The back structure is also in 18k white gold with the MB logo laser-engraved on it. The pair comes in a case with logo and authenticity certificate.
