HÈLICE LAMP N°1

\$640

DESCRIPTION

This unconventional table lamp is part of the Unicum Collection that includes a numbered, limited series of only 10 pieces made of reclaimed augers (drilling devices) of industrial machinery. Entirely crafted by hand, this lamp features an irregularly shaped stainless steel auger set between a circular beechwood base and an opal glass globe diffuser (14 cm diameter). The mirror finish enhances the elegant movement of the helicoidal silhouette, adding to the unique personality of this lamp that will stand out in any interior style, from rustic to industrial.
