## HOFFMANN 3-DOOR CABINET BY JOSEPH HOFFMANN

\$8,055

### DESCRIPTION

This iconic cabinet - recreated for the International Contemporary Furniture Fair in New York - was designed by Joseph Hoffmann in 1906. Handcrafted by assembling blockboard and solid cherry panels, its rigorous silhouette results so impactful thanks to the reversed terraced design gracing the doors, further enhanced by a final oil polishing step. The doors' silver keys flaunt the symbol of Wiener Werkstätte, the design company founded by Joseph Hoffmann.
