HORN SCULPTURE

\$3,220

DESCRIPTION

A standalone statement piece that will set the style in any home, this stunning horn sculpture can be displayed on a console in the living room or stately foyer in a traditional and modern interior decor. The support is made of black resin and embellished with a brass base in brass with satin finish that enhances the delicate ivory color with golden veining of the horn on top. This piece is polished with natural wax to preserve the stunning surface of this true one-of-a-kind decoration. Small differences from the pictured item are to be expected as a mark of its genuine uniqueness.
