HORU CABINET

\$13,060

DESCRIPTION

The traditional savoir-faire of local craftsmanship is behind the Shardana Collection of cabinets in which the designer's creativity merges with the natural features of materials. The Horu cabinet displays a solid wood structure covered in ornamental decorations in different colors inspired by Sardinian interweaving ancient patterns, rhythmically marking the lower-left corner. Balanced on a black-finished iron cross base, the tall, austere body is marked by two handles that create a graphic element that emerges from the wood surface. Ask the Concierge for available customization of decorative patterns.
