HOT BRASS SMALL VASE

\$440

DESCRIPTION

This small vase part of the Hot Brass collection, boasts a contemporary and industrial flair and will be a superb decorative accent in any modern interior, either alone or combined with its larger versions. Entirely crafted by hand of brass, its cylindrical body is exposed to a naked flame from the inside, creating a stunning effect of melted metal at the base. This elegant texture, evocative of folded fabric, is accented with a bronzed effect. This piece is made to order.
